Stack:  
FE: Vanilla Script  
BE: Python + PHP (API) + SQL

# Product Insight — Chrome Extension for internal use

An online internal chrome extension for BD Team to monitor product page with data insights

Business Issue: (concept from Amazon’s internal tracking tool) — when looking at PDP level, BD would be able to see only product detail, with traffic data and sales data provided, it would help them to make a decision about the product selling strategies and planning

Stack:  
FE: Vanilla Script  
BE: PHP (API) + SQL
